

MISCELLANEOUS LICENSES AND PERMITS
Chapter 92

92. Tobacco Products

92.010 Purpose and Intent.

Because the city recognizes that many persons under the age of 18 years purchase or otherwise obtain, possess and use tobacco, tobacco products, tobacco-related devices, and nicotine or lobelia delivery devices, and the sales, possession, and use are violations of both state and federal laws; and because studies, which the city hereby accepts and adopts, have shown that most smokers begin smoking before they have reached the age of 18 years and that those persons who reach the age of 18 years without having started smoking are significantly less likely to begin smoking; and because smoking has been shown to be the cause of several serious health problems which subsequently place a financial burden on all levels of government; this ordinance shall be intended to regulate the sale, possession and use of tobacco, tobacco products, tobacco-related devices, and nicotine or lobelia delivery devices for the purpose of enforcing and furthering existing laws, to protect minors against the serious effects associated with the illegal use of tobacco, tobacco products, tobacco-related devices, and nicotine or lobelia delivery devices, and to further the official public policy of the state in regard to preventing young people from starting to smoke as stated in M.S. § 144.391, as it may be amended from time to time. In making these findings, the City Council accepts the conclusions and recommendations of Center for Disease Control in their study “Selected Cigarette Smoking Initiation and Quitting Behaviors Among High School Students, United States, 1997,” and of the following medical professionals in these medical journals: Khuder SA, et al., “Age at Smoking Onset and its Effect on Smoking Cessation,” Addictive Behavior 24(5):673-7, September-October 1999; D’Avanzo B, et al., “Age at Starting Smoking and Number of Cigarettes Smoked,” Annals of Epidemiology 4(6):455-59, November 1994; Chen, J & Millar, WJ, “Age of Smoking Initiation: Implications for Quitting,” Health Reports 9(4):39-46, Spring 1998; Everett SA, et al., “Initiation of Cigarette Smoking and Subsequent Smoking Behavior Among U.S. High School Students,” Preventive Medicine, 29(5):327-33, November 1999, copies of which are adopted by reference.
